

# InfoTouch Pro-Panel

Industrial touch screen panel for weighbridge and site control

Robust, connected, fanless and built for industrial use

The InfoTouch Pro is a compact industrial touchscreen panel designed for site automation, weighbridge interaction and operator control. Built around a fanless 15-inch panel PC platform, it combines a rugged front bezel, industrial connectivity such as serial connections and standard PC IO and flexible mounting for demanding environments.

## DISPLAY & TOUCH

- 15" TFT-LCD Display
- 1024x768 Resolution
- 300 nits standard / 1000 nits optional
- 16.2M / 16.7M Colours
- Capacitive Touch Screen
- Flat Front Panel
- Water Resistant Gasket IP66
- Industrial Durability Touch Surface

## SYSTEM & I/O

- Intel Apollo Lake N4200
- Onboard 8GB DDR3L 1600MHz
- 2x USB 3.0 Type-A
- 2x GbE LAN RJ-45
- 1x RS-232/422/485 (COM1)
- 1x RS-232 DB-9 (COM2)
- 1x Internal Mini-PCIe slot
- SIM Card / Micro SIM SLOT
- Windows 11 Operating System

## MECHANICAL INFO

- Stainless Steel Full Construction
- Durable Touch Surface
- Ability to be wall mounted or mounted to poles and installed by service technicians
- Operating temperatures -20~60oc
- Weight is 15KG Subject to addons and specification

## Size Specifications

- Chassis 600mmx600mmx400mm
- Includes Metal Construction Panel Key and Stainless steel hood (Hood addition may increase depth of the panel if included)
- Pole Size specifications are Per customer request and can be made to fit site requirements

## IDEAL APPLICATIONS

Weighbridge

Gatehouse

Logistics

Recycling

Manufacturing

Agriculture

Plant Control

Industrial Sites

**RUGGED FRONT**  
IP66 front bezel for industrial environments

**FANLESS DESIGN**  
Reliable compact panel PC platform

**FLEXIBLE CONNECTIVITY**  
LAN, USB and serial communications

**INDUSTRIAL READY**  
Windows 11 support

# InfoTouch Addons

List of addons for our InfoTouch Range of panels  
each addition can be altered slightly to your bespoke specifications

Extended capability, the same quality that you expect

## 01 TICKET PRINTER

- Thermal ticket printing
- Fast, reliable and quiet operation
- USB / Serial connectivity
- Ideal for weighbridge transactions

## 02 INTERCOM PANEL / INDOOR CONTROL PANEL FOR INTERCOMS

- Two-way audio communication
- Rugged stainless steel design
- Indoor control panel integration
- Improve site communication and security

## 03 BADGE READER

- RFID / Proximity technology
- Fast and secure access control
- USB / Wiegand output
- Supports multiple card types

## 04 4G RADIO MODULE

- 4G LTE connectivity
- Reliable remote access and data transfer
- Dual SIM support
- Ideal for remote sites and weighbridge data

## 05 WEIGH INDICATOR (BUILT-IN MODULE SUPPORT)

- Compatible with built-in weighbridge indicator modules
- Accurate and reliable weight capture
- Multiple interface options
- Ideal for weighbridge integration

## 06 INTERNAL HEATER (COLD ENVIRONMENTS)

- Maintains internal temperature
- Prevents condensation and frost build-up
- Thermostatically controlled
- Ideal for cold and outdoor environments

## 07 INTERNAL ELECTRICAL EXTENSIONS FOR 240V

- Additional internal 240V power outlets
- Powers external devices inside the enclosure
- Neat and safe installation
- Reduces external wiring requirements

## 08 ANPR CAMERA (EXTERNALLY MOUNTED)

- Automatic Number Plate Recognition
- Rugged external camera for all conditions
- Improves vehicle tracking and security
- Seamless integration with InfoHub system

**RUGGED FRONT**  
IP66 front bezel for industrial environments

**FANLESS DESIGN**  
Reliable compact panel PC platform

**FLEXIBLE CONNECTIVITY**  
LAN, USB and serial communications

**INDUSTRIAL READY**  
Windows 11 support
